Dear Food Industry Colleagues,

We cordially invite you to join us at the highly anticipated 2024 SIAL INTERFOOD INDONESIA Exhibition, a prestigious event dedicated to showcasing the latest advancements in food production and technology. This year's exhibition, taking place from **the 13th to the 16th of November 2024**, promises to be a platform for innovation, networking, and business opportunities.

Booth No.: HALL B2, BOOTH J213

Date: 13-16 NOV. 2024

At our booth, you'll have the chance to explore a range of cutting-edge food production lines designed to meet the evolving needs of the industry. Here are some of the highlights you can expect to see:

Pet Biscuit Production Line:

Indulge in the world of pet food manufacturing with our efficient and reliable pet biscuit production line. Tailored to produce high-quality biscuits for dogs and cats, this line ensures precision in formulation, mixing, shaping, and packaging. Discover how our technology can enhance the nutritional value and palatability of your pet food products.

Corn Flakes/Breakfast Cereals Process Line:

Start your day off right with our state-of-the-art corn flakes and breakfast cereals process line. This automated system guarantees uniform cooking, efficient drying, and precise packaging, ensuring that every bite is crunchy and delicious. Our process line is customizable to produce a wide range of cereal types, catering to the diverse tastes of consumers.

Nutrition Cereal And Grain Bar Process Line:

Fuel your body with our nutrition cereal and grain bar process line. Designed to cater to the growing demand for healthy snacks, this line offers precise formulation, mixing, and extrusion capabilities. Discover how our technology can help you produce energy bars, granola bars, and protein bars that are both nutritious and delicious.

We invite you to visit our booth to experience these and other innovative food production lines in person. Our team of experts is ready to answer your questions, provide demonstrations, and discuss how our solutions can benefit your business.
